

Continuing Care Programme of Work including Learning Disabilities (High cost placements)

Andrew Spring - Workstream Sponsor
Sabyasachi Bhaumik – Clinical Lead
Judi Thorley / Maninder Singh Dulku – Workstream Leads

Working on Learning Disabilities, High Cost Placements, which is part of the wider Continuing Care agenda, which is a two year programme, driven by NHS re:source, initially commissioned by all East Midlands PCTs.

Focus of presentation is around Learning Disabilities, keen however to receive feedback on the wider Continuing Care programme.

Thanks to Maninder Singh Dulku at NHS re:source.

Case for change

NHS re:source, '*East Midlands Continuing Care Strategy*'
(July 2010)

Microsoft Word 97 -
2003 Document

Anticipated savings for Commissioners

From 2011/'12 onwards £3m

Securing the benefits

Securing the benefits

	Provider	Commissioner
Standardised contracts	Clear stated expectations will exist for all providers	Will have the benefit of a contractual standard to ensure and potential sanctions if required
Common costing framework	'Level playing field' for providers in which to operate	Greater transparency on costs incurred
Quality driven	'Level playing field' for providers in which to operate	Reassurance on service levels that service users can expect
Future opportunities	Providers can secure contracts and seek to increase provision	Potential to utilise model for joint health & social care models
Personalisation model	Person centred approach used will provide clear requirements of providers in terms of contracts	Person centred approach will provide basis for quality monitoring, partnership working and opportunity for user and carer involvement

Challenges

1. re:source will be decommissioned on 31st March 2011 with Continuing Care responsibilities moving to EMPACT
2. Four PCTs have withdrawn from central model of procurement to pursue via their own processes
3. DH will not finalise the principle contract until March 2011

- Continue to support re:source
- Seek / await DH finalised contract
- Looking to future – Continuity of process, given current reconfiguration
-
- Specifically in respect of Learning Disabilities, sharing knowledge and feedback from deliverables and build upon

Questions ?

- Happy to feedback on Learning Disabilities
- On Continuing Care, may need to feedback responses following call
